## **WASTE RECYCLING LOGISTICS**

DEPTFORD TERRACE, DEPTFORD, SUNDERLAND, SR4 6DD TEL:(0191) 567 4659 FAX:(0191) 567 0847

### **Product/Service Information Sheet**

#### **Plant and Plant Operative Hire**

- **Other Names**

Digger Hire  
JCB

- **Product Specification**

Tipper lorries, 1-30 tonne excavators, wheeled and tracked loading shovels and low loaders are all available for hire. Hire is either on an hourly basis or day rate and all plant is hired with an operator. Where a piece of plant is to remain on site over night the site needs to be secure with adequate fencing and locks to ensure no unauthorised access onto site.

We also hire operators without plant, where this is the case we will need to see risk assessments for the job and ensure any and all safety features on the machine are operating. Where risk assessments are not available our own Health and Safety Risk Assessment will be performed and a copy provided to you.

All operators have CITB Safe Sites Certificates.

- **Use**

The range of plant provided can be used for almost any earthworks purpose. We are happy to help you decide the right piece of plant for your job.

- **Raw Materials**

Not Applicable

- **Site Of Manufacture**

Not Applicable

- **Manufacture/Recycling Process**

Alex Smiles Ltd has its own mechanical team to support every piece of plant so if a problem does occur with the plant there is no need to rely on a third party to repair the machine, ensuring as little down time as possible.

- **Specification Certificates**

All operators have CITB Safe Site Certificates

- **Further Information**
